Be sure to read about the waggle dancing bees:

http://www.cs.uni.edu/~jacobson/waggle.txt

What are the 3 D’s of the Bees? What did Maureen’s magazine think of the adventure?

Lawn chair’s reaction? Brenda’s phone? The battery in Brenda’s phone?

The waggle dancing bees lessons can be better understood by getting more background and in depth analysis on the ideas, symbols and metaphors in the movie Ghostbusters.

Magazine
I’m not sure what happened. I was being held and slowly read by some woman when all of a sudden she rolled me up and started to choke me and violently whip me around. After having my face smashed into the arm of a lawn chair a couple times and then into the surface of a picnic table, I was tossed to the ground. It was a terrible and demeaning experience that I’ll never forget.

Lawn Chair
I don’t know what his problem was, but the magazine I was hanging out with abruptly got up and smacked me twice for no reason.

Brenda’s Phone
Brenda was talking into me when the incident happened. I didn’t get to see or hear anything because Brenda is such a loud and obnoxious phone talker. Whenever she uses me it’s like I’m cut off from the world. If I had enough power in my lithium battery to electrocute her face, I would. Seriously, I would do it. She is that annoying.

Lithium Battery
I second that.
