As was mentioned in class, this unit will come BEFORE Unit 4 due to the university "shut down" due to Covid-19.

This unit will consist of three separate activities which will produce six individual deliverables.

Each deliverable will be graded on a scale of 0-5 points as explained with that activity.

If you receive a score of <5 you will be informed of this with some indication of why.

You will be given an additional week from the time you receive the feedback to revise and resubmit the deliverable.

Your final unit grade will be an AVERAGE of the six individual grades.
